Homework #3_2

以c程式編寫 x^y, x, y為讀入的兩個整數

步驟：

1. 讀入二個整數x 與y 。(使用printf, scanf指令)

2. 使用while 指令，計算出 x^y 。

English version of Homework # 3_2

Please write a c program, which computes the values of x^y, and x and y are input variables.

Steps:

1. **Read integers x and y from keyboard.**

2. **Compute x^y and the statement of while is employed in your program.**
